

February 10, 2010

Due in large part to the efforts of the *Valley Voters for Education*, it appears that both levy propositions have been approved by the voters of our community. As you know, passage of the two levy propositions provides a stable and predictable source of funding for the school district in each of the next four years.

While we are certainly appreciative of the community's support for these initiatives, we especially value the efforts of the *Valley Voters for Education* committee and the many volunteers who assisted in the work to build community support for the levy propositions. Your work in providing information to the community, promoting the levy propositions, and encouraging our citizens to vote "yes" on Election Day was critical to a successful levy effort.

On behalf of the Board of Directors, school district staff, and most importantly our students, I thank you for assisting in the effort to promote passage of the levies. I believe that there is no effort more noble than advocating for the youth of one's community. For that, you are to be commended.

I hope you will continue to work with us in the years to come as future ballot propositions are presented to the voters of our community.

Thanks again.

With Sincerest Gratitude,

Joel Aune
